Registration Form

JAN 2 1988

NATIONAL
REGISTER

This form is for use in nominating or requesting determinations of eligibility for individual properties or districts. See instructions in *Guidelines for Completing National Register Forms* (National Register Bulletin 16). Complete each item by marking "x" in the appropriate box or by entering the requested information. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, styles, materials, and areas of significance, enter only the categories and subcategories listed in the instructions. For additional space use continuation sheets (Form 10-900a). Type all entries.

Describe present and historic physical appearance.

Standing on a rock outcropping in Casco Bay, the Halfway Rock Light Station, built in 1871, is composed of a tall tapered granite tower connected to a boathouse. The complex formerly had a skeleton fog horn tower, an elevated pyramidal oil house, a second boathouse, and a fog signal.

The Halfway Rock light tower rises to a height of nearly sixty-six feet from its base to the middle of its prominent lantern. Its quarry faced granite shaft is punctuated by a vertical row of four windows on both the north and south faces, and a single window in the west side. The base is crowned by a molded granite cornice that is capped by a steel deck and railing. The interior stair leads into the cast iron base that supports the lantern. A door opens off of this base onto the deck surmounting the tower. From here a ladder rises to the narrow walkway which enframes the twelve-sided lantern and its dome shaped iron roof. The tower contains within its walls the keeper's house and storage facilities.

Projecting from the north face of the tower the boathouse is a rectangular brick building. Small windows punctuate each side elevation and a door, formerly sheltered by a narrow shed roofed vestibule, is positioned on the west elevation. A boat slip extends from the gable end of the building.

☐ See continuation sheet

Verbal Boundary Description

The nominated property of two acres and more occupies the shallow rock outcropping of Halfway Rock and referenced in the Maine Coastal Island Registry as 55-5c-502.

☐ See continuation sheet

Boundary Justification

The boundary of the Halfway Rock Light Station embraces the light structure and the immediate setting of Halfway Rock; the area historically associated with this station.

☐ See continuation sheet
